THE BANNER

SCARE AWAY HUNGER!
OCTOBER 1st – NOVEMBER 1st

Stop by 410 4th Street South in Martensville to see and take pictures of the Halloween display. If you're able to, please make a cash or food donation to the Martensville Food Pantry.

TRANSPORTATION MASTER PLAN

WE WANT TO HEAR FROM YOU

Martensville is growing and we're updating the Transportation Master Plan to help prepare for the future.

The plan will consider how people drive, walk, cycle, use mobility aids, and may use public or accessible transit in the future. It will also look at how goods and services move through the city.

Our goal is to support a safe, connected, and efficient transportation network that meets the community's needs now and in the future.

We want to hear from you. Round 1 of community engagement begins in November. Tell us what is working well, what could be impiroved, and how you would like to get around Martensville in the future.

SEPTEMBER COUNCIL RECAP

September 1 | Regular Council Meeting

1. Council approved the discretionary use application from FHD Mechanical Inc., requesting approval to establish a Machine Shop at 925 8th Street South.

2. Council approved the reallocation of $35,000 in 2026 Capital Funds for emergent repairs at Mocon and Chrome Dome Ball Diamonds. The proposed work includes leveling low areas within the ball diamond infields and completing a topographic survey in response to standing water issues significantly impact field availability and playability.

3. Council authorized the City Manager & Mayor to sign a Memorandum of Understanding (MOU) for the Lake Vista II Phase 1 development. This allows the proposed Lake Vista II Phase 1 development to advance ahead of the Master Servicing Agreement completion.

4. Council approved the proposed amendment to the Naming of Civic Property and Development Areas Policy #123/26. The amendment clarifies that voting members are appointed for four-year terms following a municipal election, rather than annually, providing consistency with other Council-appointed committees.

5. The City Manager sought feedback from City Council on the proposed Fire Service Contract between the City of Martensville and the RM of Corman Park.

6. Council authorized Administration to negotiate a reasonable agreen with the RM of Corman Park and the City of Saskaton regarding the Biosolids Pipeline Corridor.

September 8 | Committee of the Whole Meeting

Mid-Term Governance Check-in - Administration advised that, with Council at the mid-point of its term, it was timely to review the current meeting schedule, Deputy Mayor rotation, Council Remuneration Policy, and meeting procedures to ensure they continue to work well for Council, Administration, and the public. No concerns were raised regarding the meeting schedule or Deputy Mayor rotation.

Discussion took place regarding allowing additional members of Council to attend the Federation of Canadian Municipalities (FCM) conference in years when SUMA is held in Saskatoon. Clarification was requested on cancelling regular scheduled meetings within the Council Procedure Bylaw. It was also suggested that the Committees of Council appointments be brought back to Council to determine whether any changes to appointments are needed.

September 8 | Committee of the Whole Meeting Cont'd

Transportation Master Plan - Council received the Community Engagement Plan for the development of a comprehensive Transportation Master Plan for the City of Martensville. The plan outlines the proposed communication tools, engagement activities, roles and responsibilities, and timeline for the project.

Two rounds of public engagement are planned, beginning in Fall 2026. The first round will focus on gathering community experiences, concerns, and priorities related to transportation in Martensville. A second round, proposed for Spring 2027, will provide an opportunity for the public to review and provide feedback on draft recommendations.

Communications for the project will be coordinated collaboratively between the project consultants and the City of Martensville.

Public Engagement Framework - The Public Engagement Framework began development earlier this year and has been refined through further research, experience, and input from leadership and management. The framework was developed to support meaningful engagement and to integrate Communications into project planning at an early stage. This will help identify engagement requirements, communication risks, and opportunities before key decisions are made.

The framework provides the City with a common foundation for engaging the community in a way that is purposeful, proportionate, accessible, and connected to municipal decision-making. Best practices and resources were used in developing the framework, including those from the International Association for Public Participation and the Community Association of Municipal Communicators, as well as the City's own activities and experiences.

September 15 | Regular Council Meeting

1. Fire Service Contract - Administration was asked to continue negotiations on the Fire Service Contract with the RM of Corman Park. The existing contract was extended until December 21, 2026.

2. The Public Engagement Framework was adopted by City Council.

3. A review of the Waiving or Reduction of Rental Fees Policy was reviewed with City Council. Revisions will be brought to the next meeting for approval.

The items listed are provided as a summary only. For full meeting minutes and additional details, please visit the City Hall section of Martensville.ca.
