
Centennial Drive Road Repair

May 13, 2020

The City's paving contractor, Prairie Paving Inc (PPI), will be coming next week to finish paving work which was not completed last year. There will be some temporary road closures and detours, however the contractor has indicated that they will maintain access to affected businesses and residences. The road closure schedule is shown below. Each section of road closure is expected to only take one day. **Phase 1 of the paving is scheduled for May 19, 2020. Phase 2 of the paving is scheduled for May 20, 2020.**

We understand this work may be an inconvenience for the businesses along Centennial Drive S and for the residents in Chaparral Ridge and apologize for any disruptions this may cause. We are working closely with the contractor to ensure this work has as little negative impact as possible.

We ask residents to please be mindful and follow all barricades, road closures, and detours that are in place. Due to the nature of this type of work, the work area will change throughout the project. Above all we want to ensure the safety of all residents and workers.

Please note that during this project, some properties will only have access from the south service road access off Lutheran Road. All efforts will be made to maintain normal access as long as possible during construction.

As this project is being completed by a contractor, PPI; for specific project or scheduling concerns, please contact:

Marc – Prairie Paving Inc.
(306) 241-8869

If you have any other questions or concerns, please feel free to contact City Hall at (306) 931-2166, or e-mail Matt Gruza, Director of Infrastructure and Planning; DirectorIP@Martensville.ca.

Thank you for your patience and cooperation!
