## 8<sup>th</sup> Avenue North Road Repairs

May 2020

A section of 8<sup>th</sup> Avenue North will be repaired starting the week of May 25, 2020. This work consists of milling the existing asphalt, levelling, and overlaying a new asphalt driving surface. Some residents may need to detour, however there will always be one access point open to Tudor Heights, and Sandy Rise.

The work area is shown on a map attached to this notice.

The contractor will make special effort to minimize the length of the disruption and to reduce the impact on motorists as much as possible. Please continue to watch the City of Martensville's website for updates and further road closures/detours. It is important to remember that this schedule is reliant on favorable weather conditions and is subject to change.

**The construction area and detours will be changing frequently. Drivers are asked to be mindful of all signage, barricades, and workers as locations and traffic patterns will change frequently.**

### Where Can I Get More Information?

If you have any questions or concerns, please feel free to contact City Hall at (306) 931-2166.
