JUN 25 2014
CITY OF MARTENSVILLE

District 3

Western Provinces and Territories

Stephen Hunt
District Director

June 16, 2014

Dear Mayor and Councillors,

In 2004, the House of Commons came together in historic fashion to unanimously pass the Westray Act. The legislation came in response to the horrific Westray coalmine explosion in Nova Scotia that killed 26 miners on May 9, 1992, and after a strong lobby campaign by the United Steelworkers to demand "No More Westrays".

The legislation was intended to hold corporate executives, directors and managers criminally responsible for workplace deaths. Ten years later, approximately 10,000 Canadians have been killed on the job, yet not one corporate executive has faced a single day in jail.

In response to this shameful record, our union has launched a campaign to "Stop The Killing and Enforce The Law", which asks provincial, territorial and federal governments to work together to ensure that workplace deaths are taken seriously and that, where warranted, the Westray Law is enforced.

As part of this campaign, we are asking City Councils to pass resolutions expressing their support for proactive action to protect workers. Though not an area of municipal responsibility, we recognize you as community leaders and this is a community issue. There is no place in Canada that has not been touched by workplace deaths, and your voices are needed to encourage senior levels of government to take steps to enforce the Westray Law.

Already communities across Canada have endorsed the enclosed resolution, including Toronto, Sudbury, St. Sault Marie, Hamilton in Ontario, Nanaimo, Burnaby, Lake Cowichan, New Westminster, Port Alberni, Mission in British Columbia, and Flin Flon in Manitoba.

I respectfully request that your council consider adding its voice by passing this resolution, and sending it to your provincial municipal association. In doing so, you will be sending a message to senior levels of government that it is time to work together to Stop the Killing, and Enforce the Law.

We would be pleased to have a representative from our union make a presentation to your council to provide additional information. Please contact Health & Safety Coordinator Ron Corbeil at 604-683-1117 or rcorbeil@usw.ca to schedule.

Thank you for your consideration.

Sincerely,

Stephen Hunt
Director

BY CB COUNCIL CORRESP. yes

SAMPLE RESOLUTION

Enforce the Westray Amendments to Canada's Criminal Code

WHEREAS it has been more than two decades since the Westray mine disaster in Nova Scotia and a decade since amendments were made to the Criminal Code of Canada to hold corporations, their directors and executives criminally accountable for the health and safety of workers; and

WHEREAS police and prosecutors are not utilizing the Westray amendments, and not investigating workplace fatalities through the lens of criminal accountability; and

WHEREAS more than 1,000 workers a year are killed at work

THEREFORE BE IT RESOLVED that this Council support a campaign to urge our federal/provincial/territorial government to ensure that:

- Crown attorneys are educated, trained and directed to apply the Westray amendments;

- Dedicated prosecutors are given the responsibility for health and safety fatalities;

- Police are educated, trained and directed to apply the Westray amendments;

- There is greater coordination among regulators, police and Crown attorneys so that health and safety regulators are trained to reach out to police when there is a possibility that Westray amendment charges are warranted.

BY CB COUNCIL CORRESP. gpd

Dear Mayor Muench,

October is **Children’s Vision Month**. Children’s Vision Month is a public education campaign that reaches out to parents about the critical role vision plays in their children’s overall health, learning, and the importance of routine eye examinations.

With continued support from all levels of government, we have an opportunity to further raise awareness of the potential number of children living with undiagnosed vision conditions and the negative impact these conditions have on their development, education, and quality of life. The Eye See Eye Learn program information packages will be delivered to participating school divisions in early fall with subsequent distribution to students in Pre-Kindergarten, Kindergarten, and Grade One. Emphasizing the importance of early eye examinations for children during this distribution cycle would enhance public awareness greatly. In addition to the Eye See Eye Learn program, “Education Week” is scheduled for the third week in October providing additional public awareness opportunities. Considering the timing of these combined milestones we invite you as the Mayor of Martensville to proclaim October as Children’s Vision Month.

The need for public education is real. A recent survey commissioned by the Canadian Association of Optometrists reports that 61% of Canadian parents believe they would know if their child was having visual difficulties. However, many serious eye conditions do not have obvious symptoms and some eye diseases only become apparent when the condition is advanced and difficult, or even impossible to treat. Children accept their vision as normal because they have no point of comparison. They may simply assume everyone sees the way they do and this poses a huge challenge.

Statistics obtained from Saskatchewan Health confirm less than 40% of age five children have obtained an eye examination in our province. We need to do more to encourage parents to obtain an eye examination for their young children before they enter school to ensure they have the visual ability to learn at their full potential. Furthermore, many parents are unaware Saskatchewan Health provides coverage for an eye examination for children under the age of eighteen.

Vision is a critical element in learning success, since 80% of learning is visual. Vision problems manifest themselves both in school and at play. Many children with eye issues become withdrawn, act out or perform well below their potential. Many parents are unaware that vision issues are common among children. We want to impress on them that one in four school-aged children has a vision problem of some kind.

Please join us in educating parents in Saskatchewan about visual and eye health problems and how they can be detected and managed at an early age, leading to a better quality of life and stronger learning outcomes. We want parents to know a comprehensive eye exam is necessary in order to adequately evaluate a child’s eye health and vision status.

During the month of October, the Saskatchewan Association of Optometrists will be working with your departments in preparation for media opportunities, placing online public awareness messages in major media resources including

print, social media, radio, and conducting interviews on local television stations. The identification and treatment of vision and eye health issues will help ensure children in our province reach their full potential.

For your convenience we have attached a proposed proclamation for your consideration.

Thank you for considering our request and please direct your response or any questions you might have to the Saskatchewan Association of Optometrists office at saskop@sasktel.net or 306.652.2069.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Sheila Spence', with a stylized flourish at the end.

Sheila Spence, Executive Director

Office of the Mayor
CITY OF _____
PROVINCE

Proclamation

“Children’s Vision Month 2014”

WHEREAS, as children across Canada return to school, many are beginning their school year with undiagnosed and untreated vision problems that interfere with their ability to read and learn;

WHEREAS, 80 percent of learning relies on vision;

WHEREAS, one in four school-aged children have vision problems that could interfere with learning;

WHEREAS, many vision problems have no symptoms and parents, no matter how well they know their child, can not determine how well their child sees;

WHEREAS, all children deserve the opportunity to learn and achieve their full potential;

WHEREAS, to determine if a child sees well, he or she requires a comprehensive eye examination;

WHEREAS, public awareness about the role vision plays in learning and learning-related vision problems is necessary for children to receive prompt vision treatment needed to enhance their lives;

WHEREAS, it is important that parents, teachers, nurses and others understand the role good vision plays in the learning process and the importance of working together to reduce the impact of untreated vision problems;

WHEREAS, public education on the importance of eye exams is critical to ensuring children see well:

I, _____ (name) _____, _____ (title) _____, do hereby declare October 2014 as *Children’s Vision Month*.

Recreation Director - City of Martensville

Subject: garden update for city council

To City Council,

First, I want to thank you for providing our gardeners with a great spot to garden!

Although we have a few challenges to manage we are off to a great start in the garden and I wanted to let you know what is happening.

We have 12 plots that have been given out to gardeners in Martensville. Currently, I also have a waiting list of 3 people that would like to garden if a spot becomes available next year.

With the intense rain at the beginning of June when many of our gardeners were trying to plant we had one plot that did not get planted. This gardener has offered to rototill his plot for this season so that it does not become unsightly and to control the weeds better for himself next year. We also have one gardener who planted her plot but has become seriously ill and is no longer able to maintain her garden. The one that did not get his plot planted has offered to take over planted spot and we now have all plots managed. This is a good example of how I believe gardeners will continue to work together to make the garden great.

Otherwise we continue to battle the grass which is growing nicely with our plants. We have all agreed that the first few years will be a challenge as we weed the grass but I know we can make it a great place to garden with some elbow grease!

We look forward to working with Brian and Dave to smooth out the edges of the garden as a grassy walking space and finish the fence between the basketball court and garden.

Thanks to Brian for getting us a water tank. Members of the garden have offered hoses and to fix the small leak that it has. I am also encouraged by the many positive comments I get from people using the walking paths as they ask about our garden while we are working. The community appears to be interested and like the idea of a community garden!

Please call me if you have any questions about how the garden is going. I am happy to come and discuss any of this with city council at your request.
